#### **Preface**

A decision to acquire additional life insurance can represent one of several significant phases in your overall financial planning.

An important part of this decision involves the comparison of the life insurance policy to alternative investment possibilities.

To help you make an informed decision about acquiring the policy, the accompanying presentation shows financial data regarding life insurance compared to these alternatives:

Any Taxable Investment; Tax Deferred Account; Annuity.

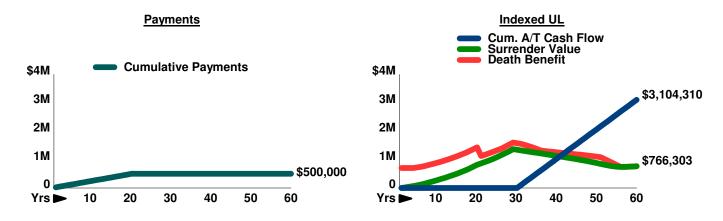

The study offers information from which you and your advisers can draw informed conclusions about the suitability of either plan.

Following are major features of the life insurance policy for you to consider as part of your overall

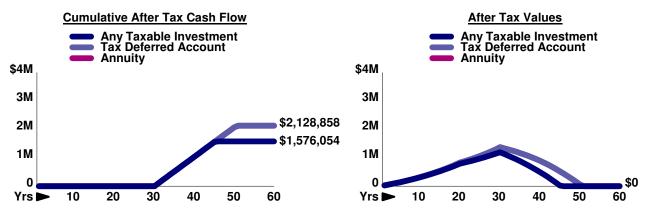

assessment:

- 1. Income tax free death benefits;
- 2. Probate free death benefits;
- 3. Accumulating cash values;
- 4. Income tax deferred growth of cash values;
- 5. Competitive current interest rate;
- 6. Tax free access to cash values via policy loans;
- 7. Privacy of all transactions.

Favorable income tax consequences combine with significant policy values and benefits to produce a life insurance solution that has a considerable amount of financial leverage.

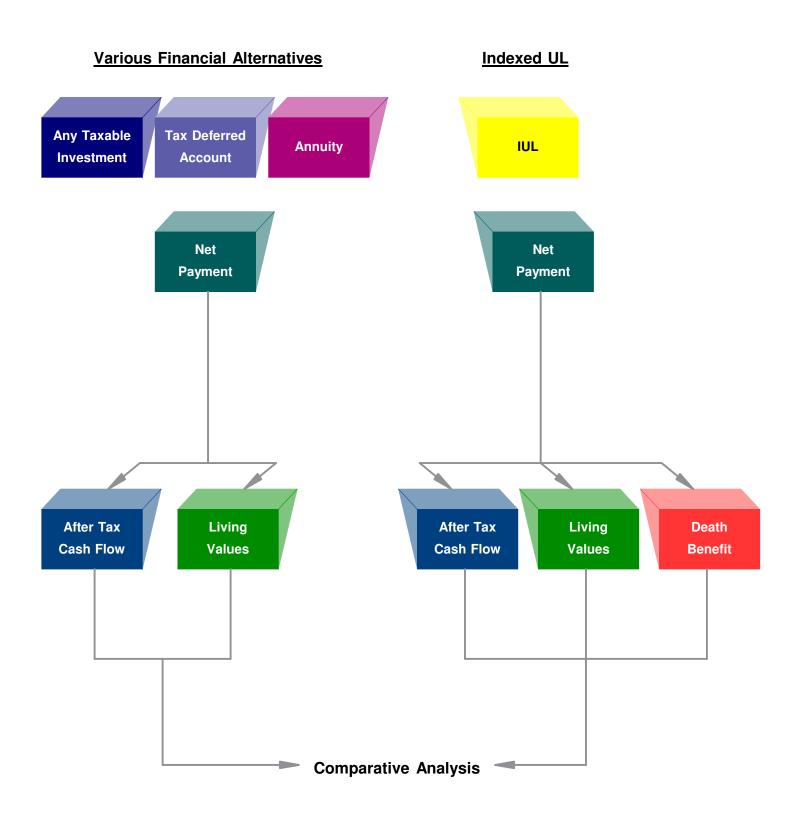

This graphic assumes the non-guaranteed values shown continue in all years. This is not likely, and actual results may be more or less favorable.

**Annuity Details** 

A Tax Deferred Account

\*This proposal shows an example of InsMark's reformatting. In a real proposal situation, this footnote would be customized to refer to a specific carrier and its illustration proposals which must accompany this presentation.

Note: Tax deferred values do not reflect surrender charges or market rate adjustments, if any.

Tax deferred accounts are assessed: Income tax on withdrawals in col (1).

Please see the attached footnote and disclosure page.

See the accompanying reports for year-by-year details:

**Annuity Details** 

A Tax Deferred Account

\*This proposal shows an example of InsMark's reformatting. In a real proposal situation, this footnote would be customized to refer to a specific carrier and its illustration proposals which must accompany this presentation.

Note: Tax deferred values do not reflect surrender charges or market rate adjustments, if any.

Tax deferred accounts are assessed: Income tax on withdrawals in col (1).

Please see the attached footnote and disclosure page.

Date: 10/10/2016 Page 4 of 9

#### Various Financial Alternatives vs. Indexed UL

Presented By: William Stephens

Insured: Sample Male age 40

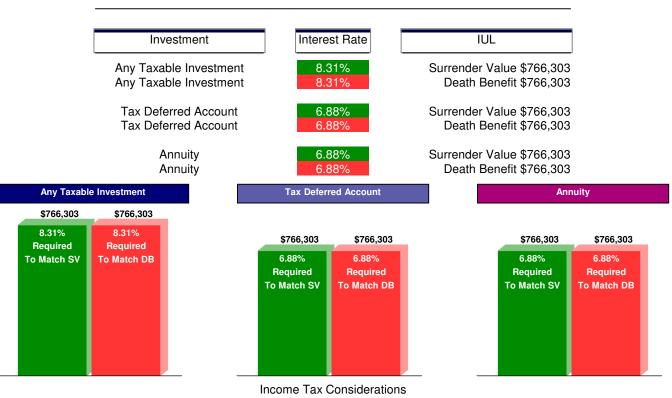

#### Matching Values at Age 99 (Year 60)

Any Taxable Investment Yield 6.00% Tax Deferred Account Yield 6.00%

Annuity Yield 6.00%

Income Tax Rate 30.00% IUL Interest Rate 6.00% Initial Death Benefit 612,121

# Gross Interest Rate needed by Various Investments over 60 Years to Match IUL Policy Values

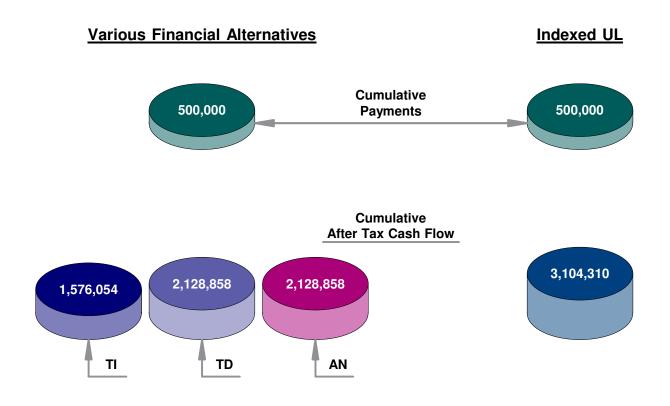

- 1. Any Taxable Investment: Interest is taxed as earned.
- Tax Deferred Account: Interest is tax deferred. (Values assume tax is assessed in year shown only)
- Annuity: Interest is tax deferred.
  (Values assume tax is assessed in year shown only)
- 4. Indexed UL:
  - a. Death Benefit including cash value component is income tax free.
  - b. Loans are income tax free as long as the policy is kept in force.
  - c. Withdrawals and other non-loan policy cash flow up to cost basis (not in violation of IRC Section 7702) are income tax free as a return of premium.
  - d. Cash values shown assume most favorable combination of b and/or c.

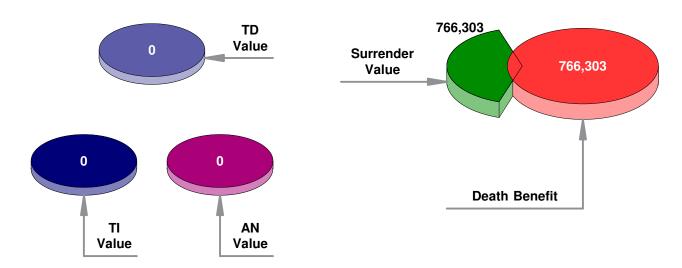

This proposal shows an example of InsMark's reformatting. In a real proposal situation, this footnote would be customized to refer to a specific carrier and its illustration proposals which must accompany this presentation.

Please see the attached footnote and disclosure page.
